

Viaggio™

Cups That Redefine The Standard

Seda Viaggio™ Hot Cups

The Art of Science and Packaging - Designed with a patented air chamber, performance for better handling, quality you can feel, passion you only find from a leader like Seda. Insulated hot cups deliver hot drinks without the need for any exterior support, such as sleeves or double cupping. With patented heat barrier technology and a tight sealing lid, Viaggio™ cups allow beverages to be poured at their optimal temperature for flavor and warmth, so drinks stay hotter, longer.

FEATURES

- **Maintain temperature:** protect beverage flavor by staying hot longer.
- **Stay safe and comfortable to hold:** with tight-fitting lids, hot cups won't leak. They radiate warmth, but won't burn fingers.
- **Deliver the brand:** Seda Group's state-of-the-art printing technology combined with the cups' high quality materials makes superior printing easily achievable, even for colors that can be challenging to produce. Ask your sales rep about low minimum custom programs.
- **Offer a sustainable choice:** Viaggio™ cups are made of fibers from sustainable forests and are fully recyclable* with a range of compostable options.
- **Made in the U.S.A.:** local availability reduces the customer's carbon footprint.

*This product is recyclable in a few communities that have appropriate recycling facilities.

Your choice

Seda: a family business, born in Italy in 1964, grown in Europe and now producing in U.S.A.
